We thank all who contributed books and magazines or in any other way helped to make the library work more successful. The Bookmobile of the State Library Commission has increased the choice of books available to the library patrons. Through the librarian books can be secured from the State Library.

At the last town meeting, Frank I. Morrill, who has served as trustee for over fifty years, was made trustee emeritus. Mrs. Charles H. Peaslee, who was first elected in 1923, was succeeded by an appointee, upon her death in August.

Respectfully submitted,

NETTIE C. MARSHALL,  
ALICE R. PEASLEE,

The above statistics show that the Hopkinton Village School was the only one in the district to have the full number of 360 half-day sessions. The decline in total average membership for the district continues. For the next year it will be more marked as many parents have left town to go into defense work. The percent of attendance was good, above the average for the state. The number of pupils enrolled in the schools of the district was 282 of whom three were Webster tuition pupils. Five other pupils from the district attended the Concord elementary and high schools. This makes a total of 284 pupils residing in the district and attending public schools.

On account of the large number of pupils in grades 1-2 at Contoocook it was necessary to separate the two grades in the fall of 1942. The upstairs back room at the Graded School was remodelled for this purpose. Some windows were added, the folding doors were replaced by a partition, modern electric lights installed, the toilets enlarged, nurse's room enlarged, and other changes made to accommodate the second graders on this floor.

We were fortunate in being able to retain all but one of our elementary teachers for 1942-43. At the high school, however, we lost 50% of the staff. Mr. C. Maurice Gray who had been headmaster of Hopkinton High School for several years left to accept a similar position at Wilton, N. H. On account of the shortage of teachers it will be difficult to fill vacancies in the spring and summer of 1943.

Since May 1942, our teachers have assisted in the O. P. A. rationing of sugar, gasoline, and fuel oil by registering consumers in this and nearby towns. School as usual, is as impossible as business or farming as usual. Changes also have to be made in our curriculum not only to permit boys to go out for farm work during

regular school hours, but subjects have to be changed to meet the specific need of young men and women for aeronautics, mathematics, and other practical training. Many of these changes will doubtless be in force for some time to come, or as long as there are labor shortages in industry, and agriculture, and high school boys are destined for service in the armed forces. The war program is no longer an extra-curricular activity. It is the principal part of the curriculum.

### *Teachers' Salaries*

For the school year 1943-44 for which appropriations will be made at the 1943 March meeting, it will be necessary to provide substantial amounts for increasing teachers' salaries. Otherwise our teachers, particularly our best teachers, will seek better paid positions. There will be fewer and poorer teachers to take their places. School boards will be wise to contract early with their teachers at a substantial increase in salaries. Under present conditions a \$50.00 raise does not greatly attract teachers whose salaries are low. Salaries of beginning women elementary teachers will probably be at least \$1000.00. Very few will be available at the Teachers' Colleges even at that. Some of the cities and larger towns have already made general increases in the salaries of their regular teachers.

The most important factor in the education of our pupils is the teacher. Though we may feel that we must cut expenses on account of rising taxes, the salary of the teacher is not the item to be reduced this year. Every effort should be made to retain our best teachers.

Respectfully submitted,

JOHN A. SINCLAIR,  
*Superintendent of Schools.*

## HEADMASTER'S REPORT

Subjects taught by your headmaster this year were: Sociology; U. S. Constitutional History; Junior Business Training; Civics. All of these are now classified as social sciences and were taught as such. Much emphasis in the last two was placed on their vocational aspects and their practical applications to everyday life. A real attempt was made to make civics a subject which a person had to live daily, and not merely study it. Material concerning other subjects will be found in previous reports with one slight exception. Sociology was taught for a whole year instead of a half year. To improve this reference books should be added from time to time. Sociology proved an interesting course to most of the pupils in spite of the fact, or perhaps because of, that there was not a great deal of daily preparation required. Fully half of the time was spent dealing with modern aspects of this course.

In making my last report for Hopkinton High School I would like to issue a word of caution. The past year has seen much demand by the armed forces for boys with much mathematics and physics and related subjects. Only one who has taught these subjects in small schools has a true perspective on these very difficult subjects. The armed forces are not asking for boys who are good at these subjects but for boys who are experts in the mathematical phases of them. A school of this size may have no one in its graduating class who has shown such ability. The number at best is very limited. Small schools must always guard against copying large schools which can give such courses to such a group with profit; even then their classes are not large. A small school must be limited in this and many other ways because of its nature. However when it comes to guid-

ance, personal knowledge of the student, recommendations and the like, the small school excels. The record of Hopkinton High School and its graduates is one of which all may be justly proud.

In leaving Hopkinton High School I like to think that I am leaving it as the best high school for its size in the state. It is very well equipped and becomes increasingly better by the addition of some good equipment every year. It has always been regrettable that our noble attempt to get a gym failed so miserably because of an over-zealous tax commission in Concord whose zealousness has not always been manifest in other affairs. One can almost count on his hands the high schools now housed in wooden buildings. It is trite to say that the future will see even less. Rightly or wrongly a community is apt to be judged by the physical appearance of its schools and other public buildings and not by the records of graduates. This aspect should not be entirely forgotten in the years to come.

The co-operation I have found in all matters and in all ways has been a source of satisfaction and makes possible many things. The welfare of Hopkinton High School will always be a matter of deep concern and much sentiment. I hope never to lose contact with it and what it represents.

Respectfully submitted,

C. MAURICE GRAY.
